Atty. Dkt. No. 051373-0113

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Currently Amended) A method of selecting and presenting user customizable preferences, the method comprising:

providing a user interface display having a list of user preference selection fields, the user preference selection fields comprising defined selection fields presenting predefined values for an operating parameter from which a user may select, the user preference selection fields and including a customizable selection field, the customizable selection field permitting a user to input a customized user preference value for the operating parameter;

receiving a selection of the customizable selection field;

receiving a the customized user preference value as an input value to the customizable selection field; and

presenting the customized user preference value in the list of user preference selection fields along with the customizable selection field.

2. (Previously Presented) The method of claim 1, wherein the step of receiving a customized user preference value includes launching a data entry request window when the customizable selection field is selected.

3. (Previously Presented) The method of claim 1, wherein the step of receiving a customized user preference value includes accessing a stored value previously entered by a user.

4. (Previously Presented) The method of claim 1, wherein the customizable selection field is set to be a default selection in the list of user preference selection fields such that the customizable selection field and customized user preference value are displayed in the list of user preference selection fields.

Atty. Dkt. No. 051373-0113

5. (Previously Presented) The method of claim 1, wherein the step of presenting the customized user preference value along with the customizable selection field in the list of user preference selection fields includes presenting the customized user preference value in parenthesis next to the customizable selection field in the list of user preference selection fields.

6. (Previously Presented) The method of claim 5, wherein the customizable selection field corresponds to a specific image compression percentage.

7. (Previously Presented) The method of claim 1, wherein the user interface display is a display on a limited text entry device.

8. (Previously Presented) The method of claim 1, wherein the customized user preference value is a number.

9. (Previously Presented) The method of claim 1, wherein the step of presenting the customized user preference value along with the customizable selection field in the list of user preference selection fields includes updating the customizable selection field in the list of user preference selection fields based upon configuration settings.

10. (Currently Amended) A user interface configured to select and present user customizable preferences, the user interface comprising:

means for providing a display having a list of user preference selection fields, the user preference selection fields comprising defined selection fields presenting predefined values for an operating parameter from which a user may select~~the user preference selection fields including~~ and a customizable selection field, the customizable selection field permitting a user to input a customized user preference value for the operating parameter;

means for receiving a selection of the customizable selection field;

means for receiving ~~a~~ the customized user preference value; and

means for presenting the customized user preference value along with the customizable selection field in the list of user preference selection fields.

Atty. Dkt. No. 051373-0113

11. (Previously Presented) The user interface of claim 10, wherein the means for receiving a customized user preference value includes means for launching a data entry request window when the customizable selection field is selected.

12. (Previously Presented) The user interface of claim 10, wherein the means for receiving a customized user preference value includes means for accessing a stored value previously entered by a user.

13. (Previously Presented) The user interface of claim 10, wherein the means for presenting the customized user preference value along with the customizable selection field in the list of user preference selection fields includes means for presenting the customized user preference value in parenthesis next to the customizable selection field in the list of user preference selection fields.

14. (Previously Presented) The user interface of claim 10, wherein the customized user preference value corresponds to a specific image compression percentage.

15. (Previously Presented) The user interface of claim 10, wherein the user preference selection fields are presented in a drop down list.

16. (Previously Presented) The user interface of claim 10, further comprising means for communicating the customized user preference value to a host computer via a network.

17. (Currently Amended) A processing system comprising:  
  
a central processing unit (CPU); and  
  
a storage device coupled to a processor and having stored there information for configuring the CPU to:

provide a user interface display having a customizable selection field, the customizable selection field permitting a user to input a customized user preference value for an operating parameter in a list of user preference selection fields additionally including

Atty. Dkt. No. 051373-0113

defined selection fields presenting predefined values for the operating parameter from which a user may select;

receive a selection of the customizable selection field;

receive a customized user preference value; and

present the customized user preference value along with the customizable selection field in the list of user preference selection fields.

18. (Previously Presented) The system of claim 17, wherein the presentation of the customized user preference value along with the customizable selection field in the list of user preference selection fields includes presenting the customized user preference value in parenthesis next to the customizable selection field in the list of user preference selection fields.

19. (Previously Presented) The system of claim 17, wherein the customized user preference value corresponds to a specific image compression percentage.

20. (Previously Presented) The system of claim 17, wherein the CPU is further configured to store a previously entered user preference value.
